CLASSIC LEAD 80

12-inch guitar speaker with fibreglass voice coil

12in	1.75in	80W	8&16	99
305mm	Voice Coil	Watts	Ohm	dB

Developed in the late '70s the Classic Lead guitar speaker uses a fibreglass voice coil former to deliver an 80W power rating and a unique dynamic sound.A firm favourite with lead guitarists the Classic Lead features a tightly controlled low-end with strong high bass / low mid punch aggressive mid range attack and a powerful yet controlled top-end.For power chords it has the tone to make its presence felt but the subtle high-frequency roll- off makes it ideal for solos able to project single notes on loud stages without becoming shrill.
