Introduction

NUX Morning Star gives every guitarist the warmth, and transparency they need to shine. It literally comes with an additional circuit we call: Shine! Hold the foot-switch to activate the Shine circuit which increases your high frequency level to get a whole new horizon of tone brightness. Go from Blues-Breaker to Blues-Fire Cracker! You also get 2 bypass options: True Bypass or Buffer Bypass for your essential signal chain needs.

Features

- Warm overdrive circuit with switchable "Shine" circuit (Hold the foot-switch for 1.5 seconds to activate)
- True Bypass / Buffer Bypass (Optional)
- Drive, Level and Tone
- USB input for firmware updates

Classic settings

Take a look these dynamic parameter settings for quick dial-ups, which can be infinitely tweaked to find your perfect tone. (Your guitar is the main signal source, so parameters can sound different on different guitars and pick-up arrangements.)
