

# CANVAS

## POWER USB

Thanks for trusting us to provide your pedals with clean, quiet isolated power. Our goal with the Canvas Power Supplies is to bring simplicity and modularity to power your pedalboard.

Power your Canvas USB with most USB Power Delivery (PD) supplies like USB PD battery packs, laptop chargers, and high power phone chargers.

Adding the Power USB to a board that already has a Canvas Power unit installed? Simply put the Power USB before your current power supply and connect them from the Power USB's 24V Thru to your main supply's 24V In with the included EIAJ cable.

Power USB will prioritize the normal DC brick supply if present, or use the USB PD input if no power brick input is detected.

View the full manual, see how the mounting brackets work, register your pedal, and more by scanning the QR code on the reverse side.

Scan the code to register your power supply, view the full manual, leave a review, and more.

This product comes with a limited lifetime warranty.

We also staff a real live human to answer emails for repairs, questions, and general life advice. [help@walrusaudio.com](mailto:help@walrusaudio.com)
